Sit down: 71,1 cm (28") from floor to top of table.

Stand-up: 101,6 cm (40") from floor to top of table.

All other specifications are identical for both sit down and stand-up tabletops.

2.2 Tabletop

91,4 cm (36") across and 66,0 cm (26") deep.

Legs will be 71,1 cm (28") minimum inside leg and 45,7 cm (18") minimum from leg to leg.

2.3 Elbow Pads

17,8 cm x 17,8 cm (7"x 7") square shape. 5,1 cm (2") thick, made of heavy high-quality foam material, covered with a vinyl/rexin type cover. The foam and covering can be attached to a 3,2 mm (1/8") metal sheet, 17,8 cm x 17,8 cm (7"x 7") with two threaded bolts 0,6 cm (1/4") diameter x 4,4 cm (1 3/4") long, welded to the bottom to be able to attach your elbow pads to the table top.

A line, either painted, upholstered or taped from hand grip to hand grip to establish centre of the table will always be used at PAF tournaments.

2.4 Touch Pads

25,4 cm (10") long x 10,2 cm (4") high. Made of good quality touch pad.

2.5 Placement

Elbow pads should be set 5,1 cm (2") from their respective edge.

They should overlap each other by 1/2 to the right of centre for a right arm table and overlap each other by 1/2 to the left of centre for a left arm table.

2.6 Touch Pads

Should be on an angle, 12,7 cm (5") out from the inside corner of the elbow pad to the inside corner of the pad and 1,3 cm (1/2") from its respective edge measured to the outside corner of the pad. Running at an angle towards the hand peg it should measure 7,0 cm (2 3/4") from the hand peg to the outside corner of the touch pad.

If it's for a right arm table, these measurements should be made on the left side of the elbow pad and reversed if it's a left arm table.

2.7 Hand Pegs

Should be placed midway at 33,0 cm (13") on each edge of the table, 1" in from the edge.

The peg itself should be 2,5 cm (1") in diameter and 15,2 cm (6") high from the tabletop.

2.8 Seats

They should be 45,7 cm (18") square and 45,7 cm (18") from floor surface to seat top surface. The front edge should be exactly in line with the table edge. The seat and table should be secured to a platform or floor.

Both competitors should sit on seats at 71,1 cm (28") high tables.

2.9 Material

The best material to use is square tubing although tubular steel, flat iron or angle iron may be used, but not more than 5,1 cm (2") in diameters or width. The tabletop and seat top are normally made of 1,9 cm (3/4") thick plywood.

The tabletop and seat may have a thin sheet of foam, covered with vinyl/ rexine type material to add a comfortable finished look. No plexi-glass or reflective tape is to be used on the tabletop or seats.

2.10 Chalk Stand

A stand suitable for chalk/rosin or stickum should be placed on either side of the table but at a suitable distance away so as not to bother referees or minor officials with the dust floating in the air or with competitors preparing for a match.

2.11 Staging

If raised staging is used, hosts are responsible for supplying or installing protective railing around the perimeter, to prevent competitors from accidentally falling off.

The staging must contain a step down of 43,2 cm (17") to 53,3 cm (21") with a minimum width of 100,0 cm (39,3") for the second referee to stand down on to help lower them from obscuring the view of spectators / TV.

If the drop from the referees staging is more than 1 meter high off the ground the hosts are also responsible for supplying and installing protective railing around the perimeter to prevent competitors and officials from falling off.

Stages should also be planned with the intent to keep non-participants away from the competition table and draw sheet table.

2.12 Riser Platforms

Riser platforms can be used by competitors who have a height disadvantage. Riser platforms can be used in combination with platform shoes or multiple platforms, to raise the competitor, to at least bring their waist to the tabletop. Competitors can use a personal riser with prior permission of the Head Referee before the start of contest.

For consistency and ease of handling reasons, riser platforms will be built of 1,3 cm (1/2") thick plywood, 10,2 cm (4") high x 91,4 cm (36") wide x 81,3 cm (32") deep. They will be notched at the top part, as to fit the table legs on each their respective side, to prevent them from slipping out during competition. Approximately 7,6 cm (3") from the top, the notches, on either side will be located.

A hand slot will be cut in the centre to facilitate the removal and installation of the riser platform.

2.13 Straps

When used, they will be of a standard 2,5 cm (1") style with a plastic or metal buckle and not of velcro. The straps used by PAF will be 2,5 cm (1") wide.

Section 6 – Universal Words

- Each competitor should know the following words.

Ready Go	Knuckles	Elbow down	Wrist	Shoulders
Stop	Warning	Winner	Up	Referee Grip
Back	Thumb Down	Don't move	Centre	Coincidental
Grip	Foul	Down	Strap	Dangerous Position

- The word SHOULDER will be used to describe a dangerous position.

Section 7 – Warnings

- 7.1** Any early movement with shoulders, arm, hand or fingers will be a **warning** unless competitors are in a referee's grip. Then it would be a foul.
- 7.2** If one competitor is causing a delay "locking up" the referee will give the offender a **warning**.
- 7.3** Letting go of the peg will result in a **warning** being called to the offender, without stopping the match. If an advantage is gained prior to re-gripping the peg, the match will be stopped, and the offender will be given a **foul**. Contact with the peg must be above the table. One armed or one hand persons do not have to grip the peg.

Section 8 – Fouls

Note: *Two warnings will equal one foul.
Two fouls, competitor will lose that particular match.*

8.1 Fouls

- 8.1.1 If competitors fail to come to the table in the 60 seconds allotted, they will be given a loss. Their name will be dropped to its proper slot, the same as a loss in an actual bout. If they already have a loss, they will drop out of the tournament for that particular weight class.
- 8.1.2 Competitor's shoulder must not cross the "centreline" between pegs during competition. This will be a **FOUL**.
- 8.1.3 Competitor cannot touch any part of their body such as chin, shoulder, or head. A foul will be given.
- 8.1.4 Intentionally pushing of your own hand into an opponent shoulder will result in you getting a **FOUL**.
- 8.1.5 When a competitor starts to put themselves in a "dangerous position", the referee will caution the competitor loudly so that the competitor understands the caution. Referee will instruct the competitor to face their competitive arm, so as to keep the hand, arm and shoulder in a straight line. Competitors must never force their shoulder inwards, ahead of their arm or hand, towards the table.
- 8.1.6 Competitors cannot drop the competing shoulder below the level of the elbow pad when in a neutral or losing position. This will be considered a dangerous position.
The neutral position defined as the starting position down to 2/3 of the way to the losing side of the table.
- 8.1.7 Any obviously intentional action that causes your opponent to get a foul will result in no foul for the opponent and you receiving the foul instead. Example obviously intentionally pushing your opponent off the back of the elbow pad.
- 8.1.8 30 second rest is permitted after a **FOUL**.
- 8.1.9 Foul language, poor sportsmanship or abuse towards an official will result in a **FOUL**. If it continues, competitor or official will be barred from the tournament.
- 8.1.10 Any foul given when a competitor is more than 2/3 of the way down to the pad is a loss

8.2 Referee Grip

- 8.2.1 Competitors have 30 seconds to "Grip Up". If in that time, they have not gripped up, they will be given a "referee's grip". A referees' grip consists of the following procedure.
- 8.2.2 Before the referee starts the referees grip, the referee asks the competitor if he/she wants their thumb up (on top)? Or down (below their finger)? By indicating to them (with their own thumb) at the same time saying the words "up?" or "down?".
If one competitor already has one foul the referee will inform both them and the spectators by indicating with one finger you have one foul, the referee will then indicate the start of the referees grip by putting his open hand to the centre of the table and say open hands table centre. Then the competitors hands are placed palm to palm by the referee, the thumbs are placed appropriately by the referee, the referee will say this hand first (at referees discretion) then fingers are wrapped by the referee, first one competitor, then the other. Thumb knuckles will be showing, forefingers level, wrists straight and arms centred.
Competitors are not to move from this set up, when the hands are completely closed the referee will use the standard start position that is used to start all matches in Section 5 Competition Rules 5.2 General Guidelines 5.2.4.
- 8.2.3 Examples of movement are fingers re-gripping, back pressure, bending wrists, early start or elbow lifting off the pad.

8.2.4 Any movement by any competitor will result in a **foul** being given against the one that moves.

8.3 Elbow Fouls

8.3.1 A **foul** will be given when a competitor's elbow loses contact with the elbow pad. A competitor is considered to lose contact with the pad when

8.3.2 The elbow lifts vertically off the pad, no matter how insignificant, as long as there is clearance between the pad and the elbow. It is not considered an elbow **foul** if the elbow has lifted off the pad, but the competitor still has contact with the elbow pad with their triceps or their forearm.

8.3.3 An elbow **foul** will be called if the competitor is riding on their triceps or forearms and the elbow extends beyond any side of the elbow pad.

8.3.4 Any foul that occurs simultaneously with a foul by your opponent will be considered coincidental, the march will be stopped and restarted and no foul will be given.

8.4 Slip Outs

The referee will call one foul for “causing a slip out” when:

8.4.1 You lift your fingers off your opponent's hand prior to a slippage

8.4.2 You close your fingers as to make a fist inside your opponent's hand

8.4.3 You're in break wrist position and you pull your fingers inside your opponents hand, therefore you are unable to hold your grip.

8.5 Straps

8.5.1 Straps will be used when any match ends by way of a slip-out **not resulting in a foul**. A slip-out occurs when both competitors have lost complete contact with one another. The official must be certain of the circumstances preceding the actual slip out before calling a foul. If the official is uncertain as to who caused the slippage or it was caused by the actions of both competitors, then straps will be used and no foul will be given.

8.5.2 When straps are employed, the officials will ask competitors to place their elbows to the center of their respective elbow pads, place their hands palm to palm, fingers extended and thumbs up. Opposite hand will grip hand peg. In this position the strap can be quickly installed. Only the official can adjust the strap. Competitors may ask to loosen it or move it if it's uncomfortable. The strap cannot be lower than 2,5 cm (1") below the natural wrist line.

The new fairer wrap will be used. The referee will always wrap the buckle side wrist first. When going around the last wrist the strap will be threaded above the strap on that wrist.

8.5.3 After the strap is installed, competitors may take their grip and place their elbow to their choice of position.

8.5.4 If a competitor intentionally slips out during the match in a losing position (losing position is determined by being more than 2/3rd of the way down to the pin pad), the competitor will lose that particular match. Any intentional slip is an automatic **FOUL**.
